

INTERGALACTIC DUCKS

Geekathon '22

“ —
ONE GIANT LEAP FOR
MANKIND.
ONE TINY STEP FOR
DUCKS.”

Dreaming of
travelling?

Us too.

By year, it's estimated that we travel by plane 40.3 million times.*

In 2004, the number was 23.8 million.

A return flight generates more CO₂ than citizens from New York, in a whole year. **

* Pre-COVID data (2020).

** How your flight emits as much CO₂ as many people do in a year (Guardian, 2019).

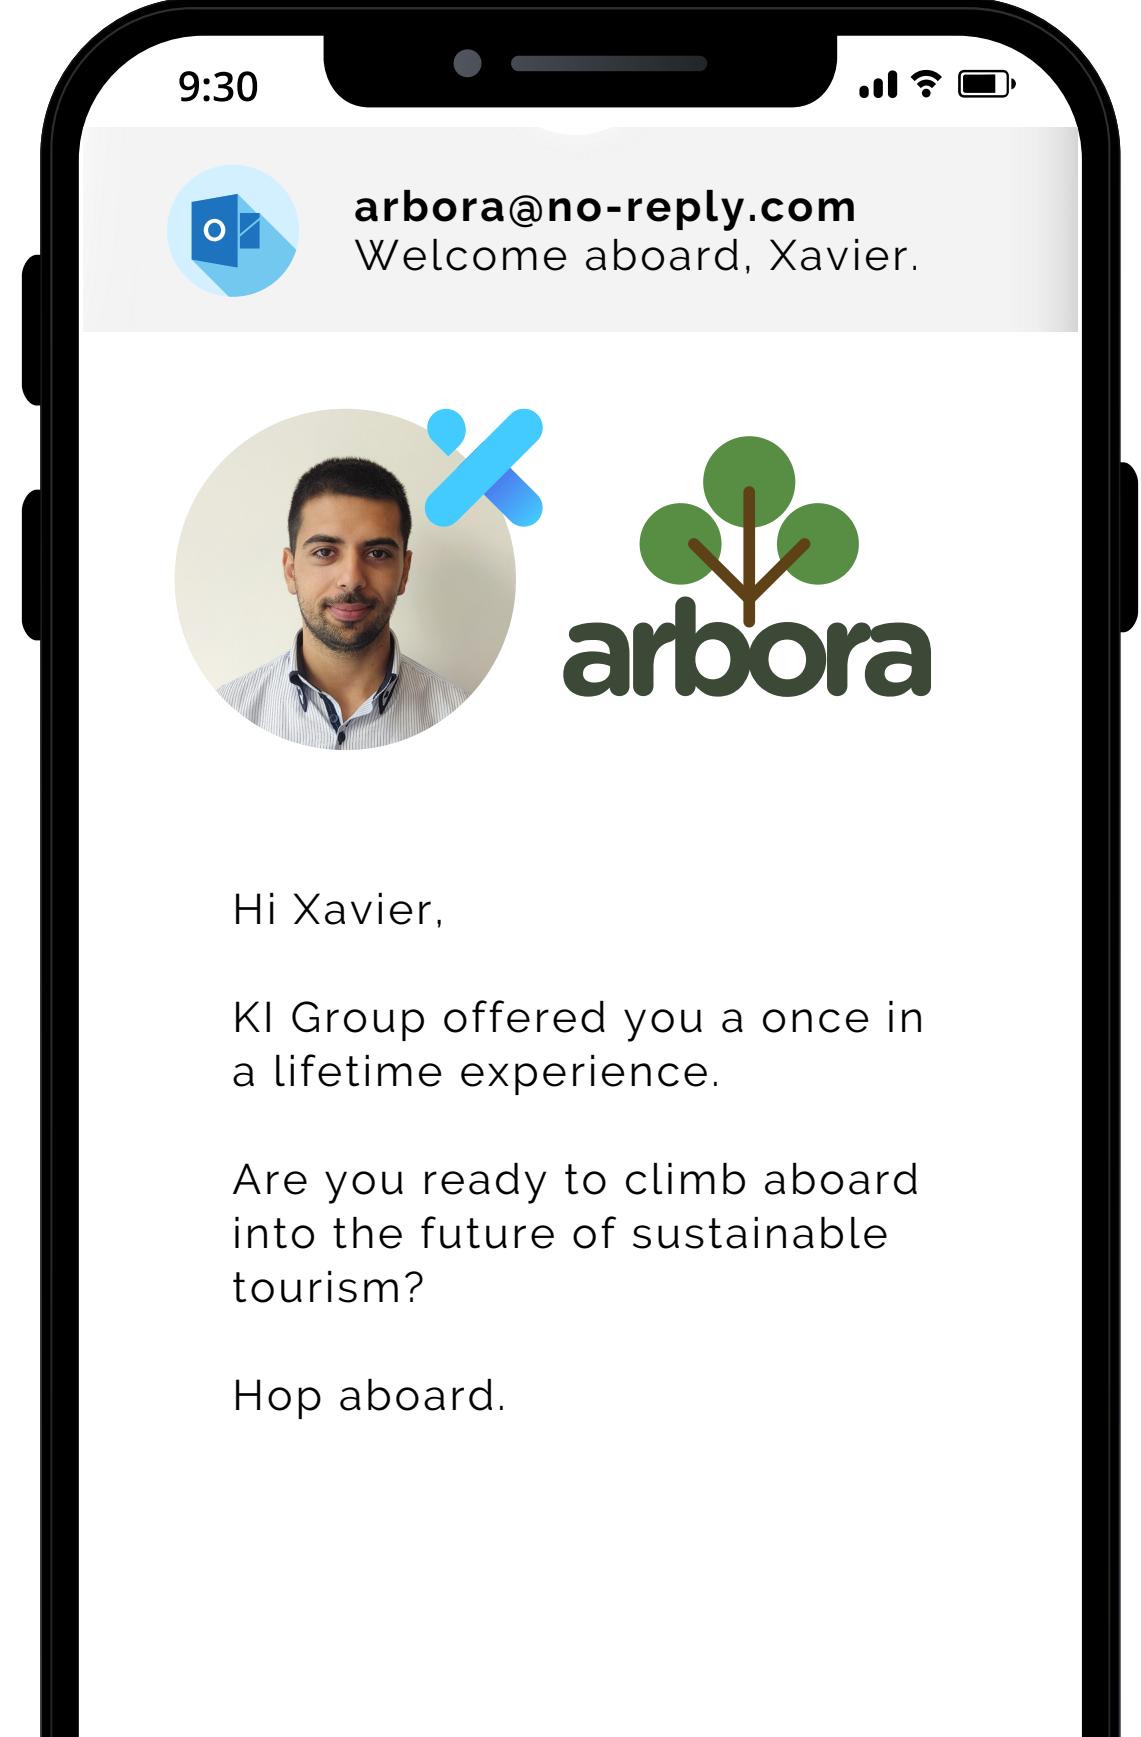

People

Travelling is considered part of an individual achievement and an experience we ache for

Sustainability

How to enable a more sustainable process for travelling?

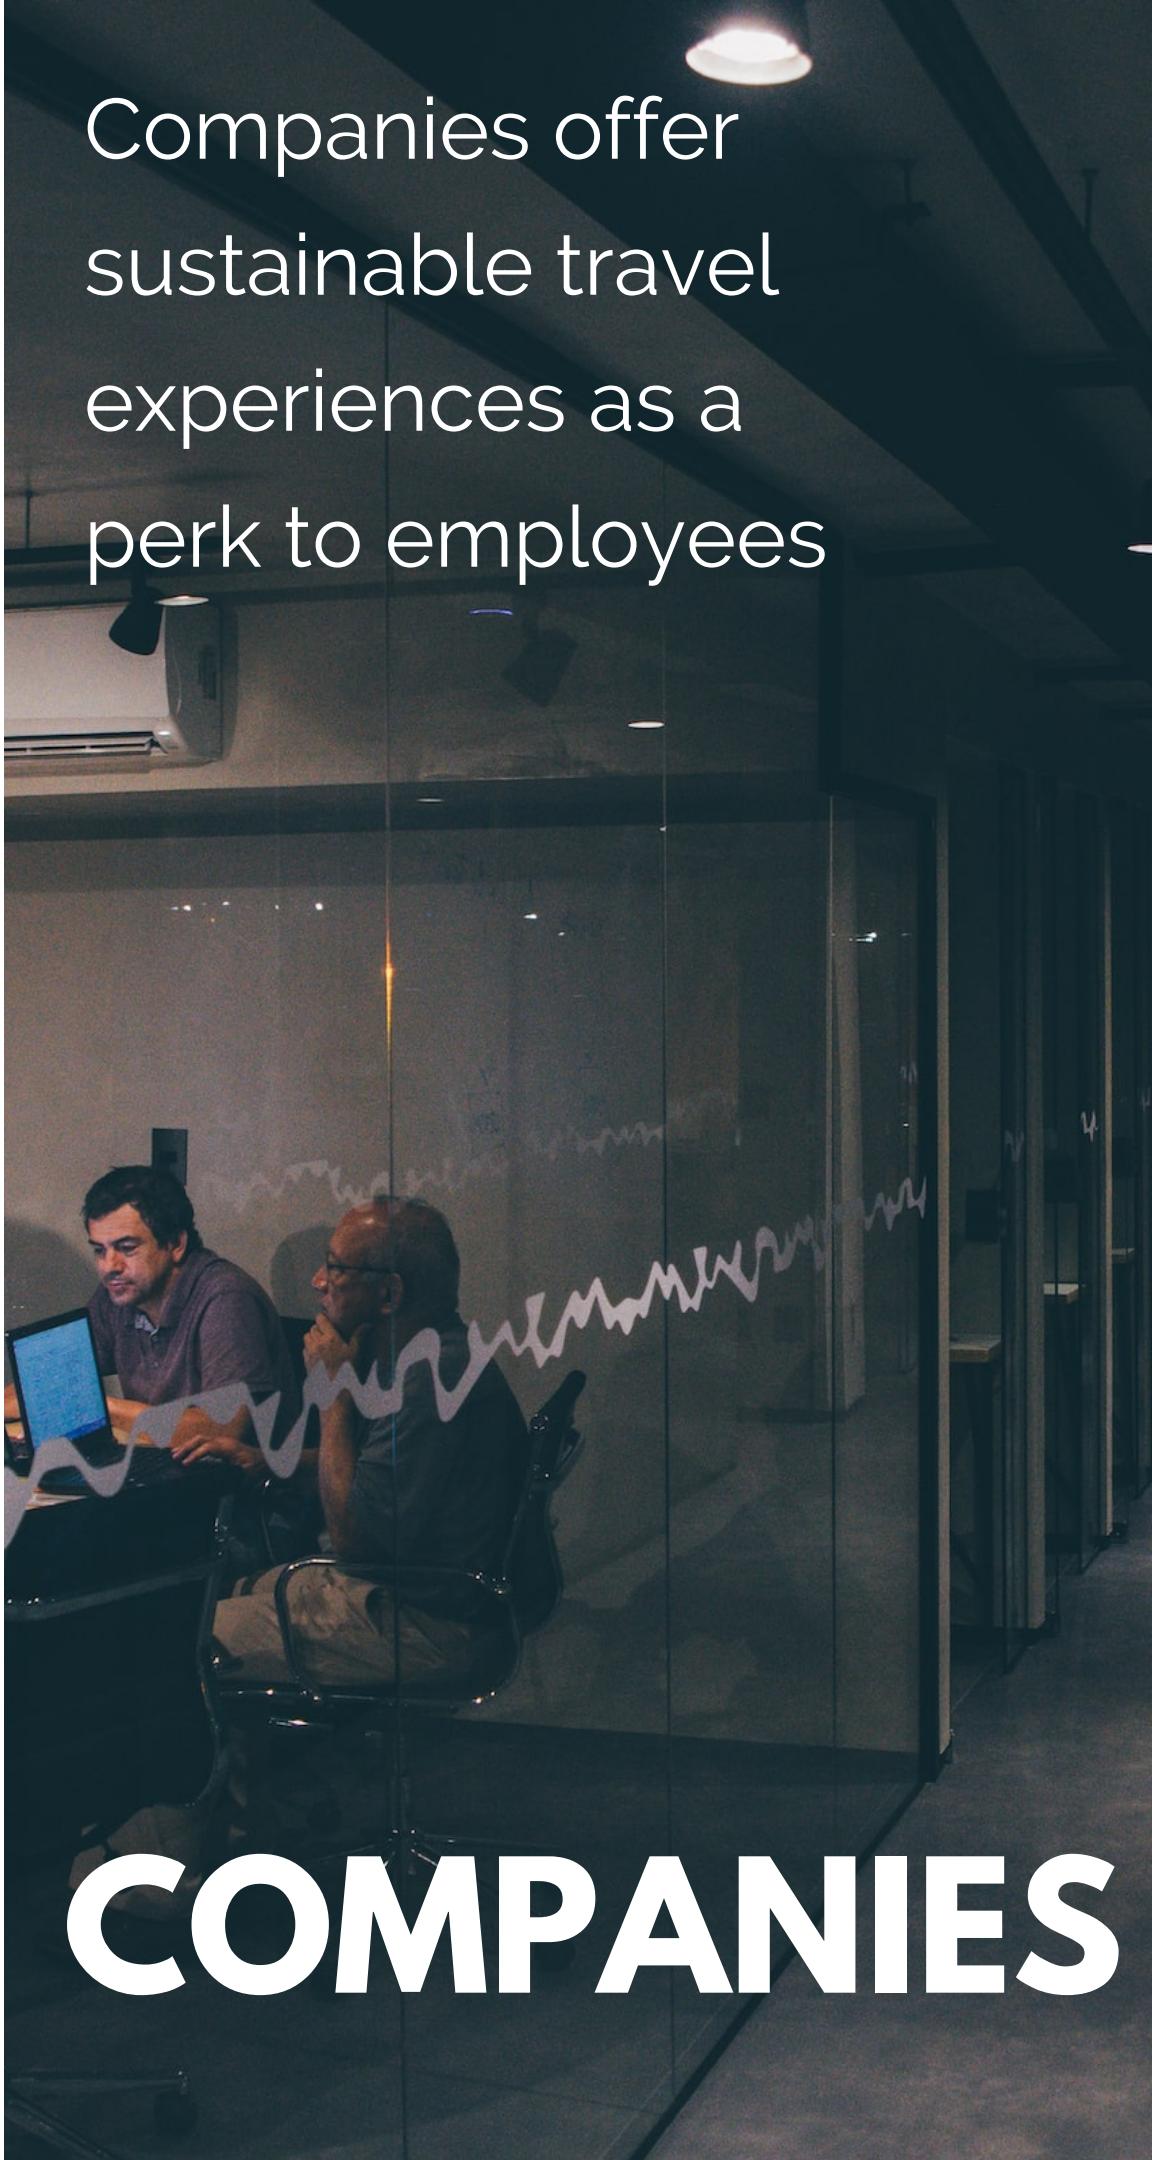

A complete eco-friendly solution for **companies**, to provide **sustainable travel experiences** for **employees**.

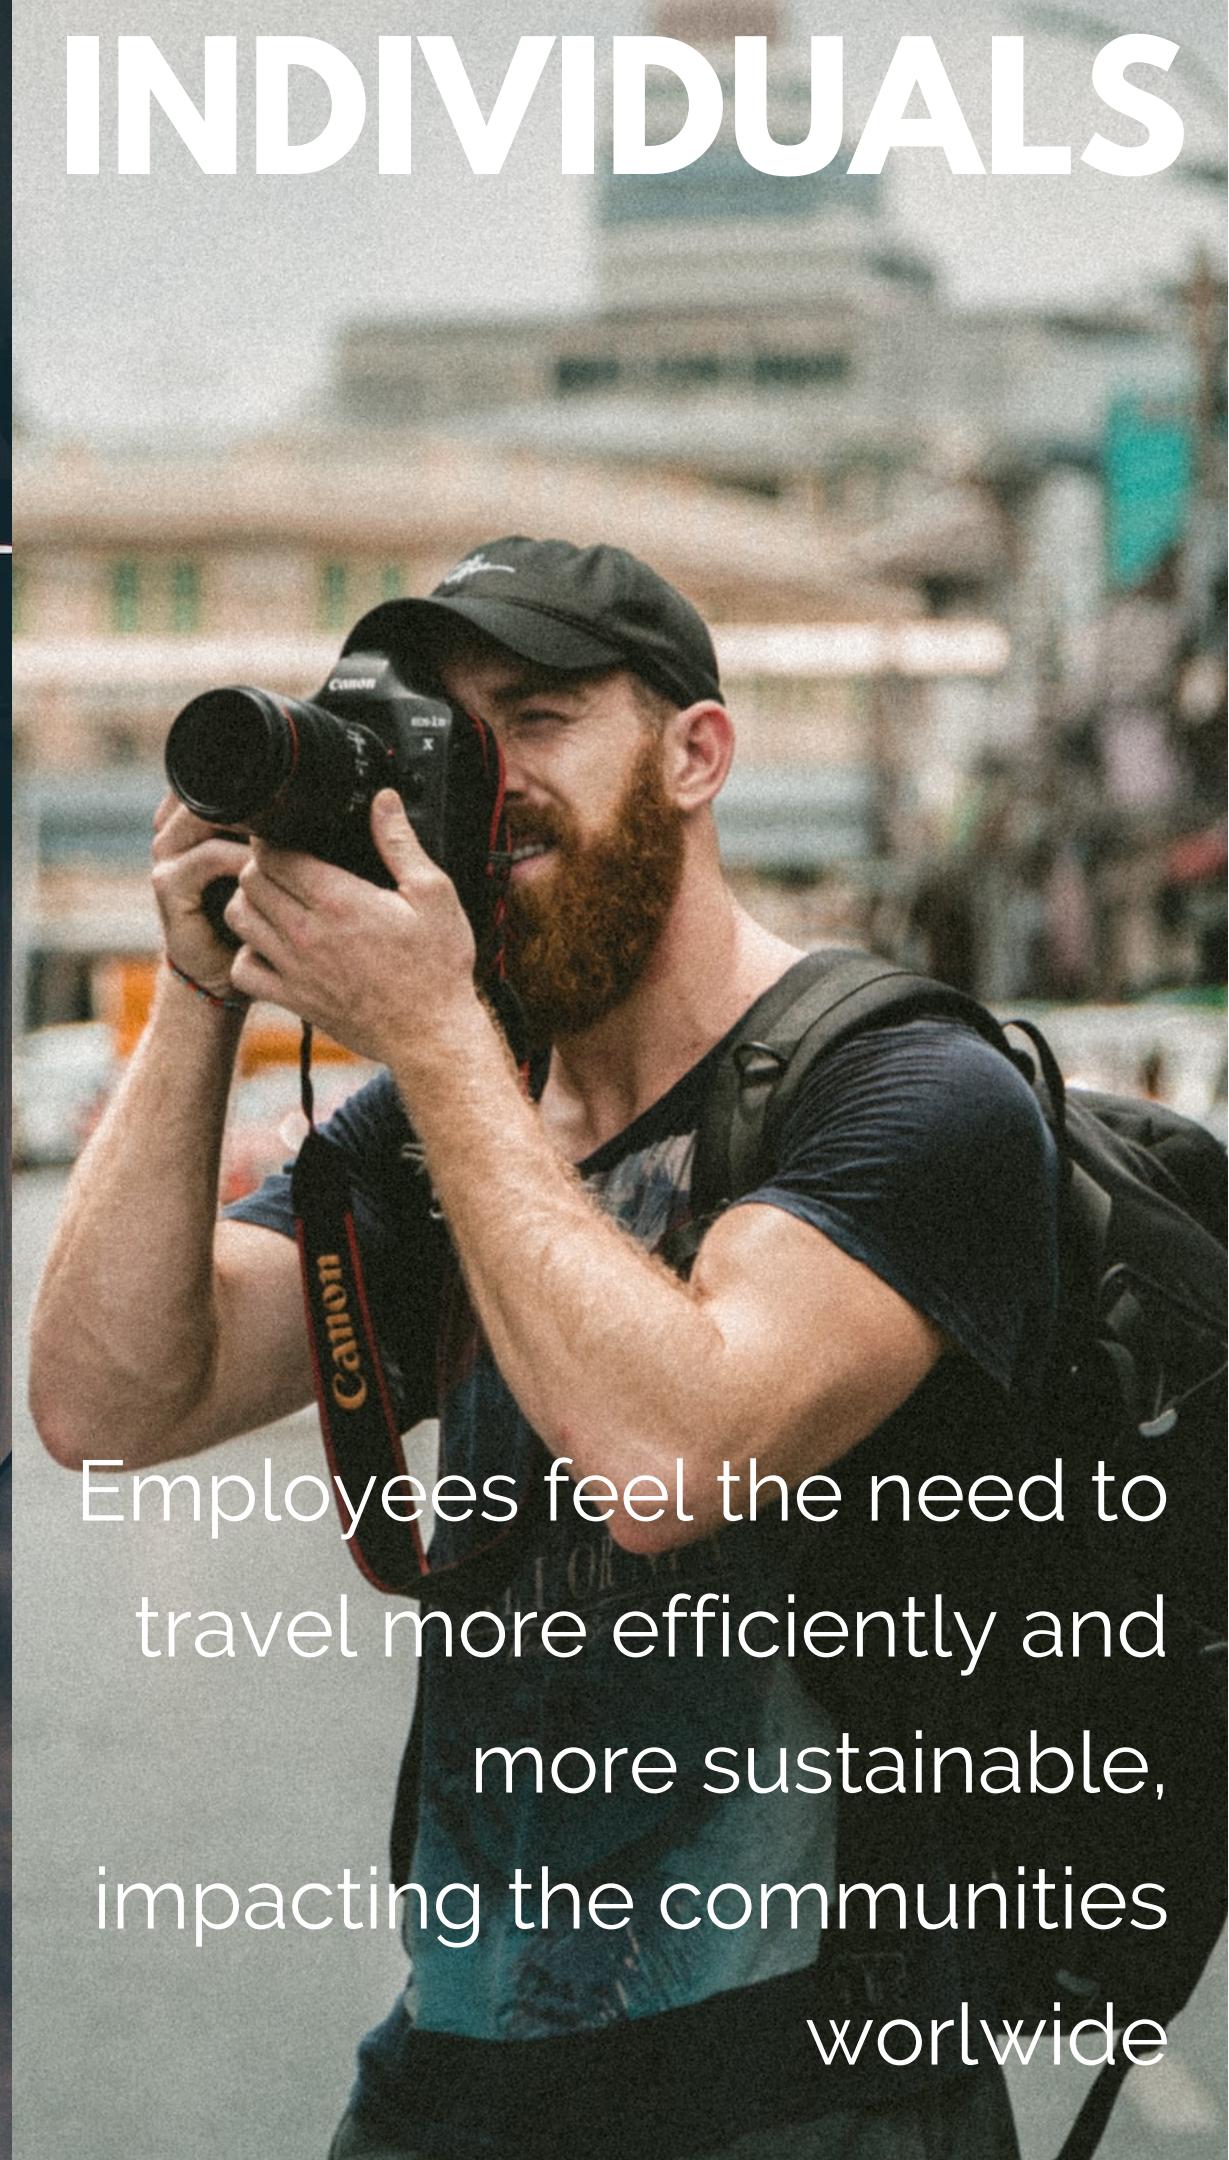

COMPANIES

Companies offer sustainable travel experiences as a perk to employees

INDIVIDUALS

Employees feel the need to travel more efficiently and more sustainable, impacting the communities worldwide

OUR END GOAL?

**CREATE MEANINGFUL EXPERIENCES
FOR PEOPLE, WHILE CARING FOR
THE PLANET & THE COMMUNITIES.**

**ECO-FRIENDLY COMPANIES,
CREATE HAPPIER INDIVIDUALS.**

Flights

We guarantee your employee will travel within the reasonable least amount of CO₂ consumption for the chosen route/experience

Accommodation

We provide a list of eco and sustainable accommodation, guaranteeing they follow the highest standards regarding the impact on the environment

Experiences

Environmental driven experiences, to provide a unique experience for your employee or team members, contributing to the community and to provide a personal enrichment memoir

Carbon Offset

Every booking will have their environmental cost compensated: via carbon offset for the flights or for direct contribution to the community
